Preface

Legend

In procedures on the following pages you will see various symbols used.

- ✓ When a procedure is described, the check mark indicates the result of an action.
- ➡ The arrow indicates a content note.

Patient Identification within CMS Net

Patient Identification within CMS Net

Each time you access a particular function in CMS Net, you must select the patient record you want to work with. The Patient Identification screen allows several ways to select a patient.

What is the search criteria?

A patient can be identified using the following:

- Patient Name; and/or
 - Birth date and/or Gender; and/or
 - Current Legal County (Registration Display Only)
 - California Children's Services (CCS) Number; or
 - Client Index Number (CIN); or
 - Social Security Number.
-

➡ Once you have selected a specific patient, using one or more of the above identifiers, and have not left CMS Net or selected another patient, the name will always default to the original patient selected.

➡ **The CIN is a permanent part of the CMS Net patient record and cannot be deleted by the user.** It can be linked to another Statewide Client Index (SCI) record. If a duplicate SCI record/CIN is created, send the duplicate record information to the System Administrator via Mailman. Only an SCI Administrator can delete a CIN number.

Patient Identification Screen

The Patient Identification screen is used to select a patient record from the option you selected (e.g., Narrative Entry/Edit).

How do I access the Patient Identification screen?

Any function in which a patient's case is affected, the Patient ID screen will appear (CMSPI-10), regardless of what menu option is selected.

- ➡ You will reach the Patient ID screen via the most menu options.

**Patient
Identification
Screen**

After pressing <Enter>, the Patient ID screen is displayed:

CMSNET	PATIENT IDENTIFICATION	CMSPI-10
--------	------------------------	----------

Enter one of the following identifiers:

CCS Number:

Pt Name: Birthdate:

Current Legal County: *(Registration Display only)* Gender:

Client Index Number:

Social Security Number:

Field Descriptions and Requirements.

The following is a table, which describes the fields and defines the requirements used in Patient Identification.

Field	Description and Requirements
CCS#	Enter CCS#, if known <ul style="list-style-type: none"> No other data required if this field is entered.
Patient Name	LASTNAME APP, FIRSTNAME MI <ul style="list-style-type: none"> No other data required if this field is entered but if you choose to further refine your search criteria, you may use Date of Birth and/or Gender Hints: <ul style="list-style-type: none"> You can type 2 letters of LASTNAME, comma, 2 letters of FIRSTNAME (helps to find names with a variety of spellings). Asterisks are NOT allowed for search. Periods are not allowed in a name. Hyphens and apostrophes are acceptable. When searching names, be sure to account for potential duplicate entries; e.g., Gonzalez, Gonzales, Gonsales Appellations (e.g., JR) are typed after the LASTNAME and before the comma; e.g., HARPER JR, HOWARD R.
Date of Birth	MM/DD/YYYY or MM-DD-YYYY <ul style="list-style-type: none"> Examples are 1/1/1998 or 1-1-1998 If a 2-digit year is entered, the system will assume it is in the 1900s. It is not necessary to enter leading zeroes.
Gender	(M)ale or (F)emale, <ul style="list-style-type: none"> You must enter date of birth if you want to search on this field.
CIN	Enter Client Index Number, if known <ul style="list-style-type: none"> No other data required if this field is entered.
Social Security Number	NNN-NN-NNNN or NNNNNNNNNN <ul style="list-style-type: none"> Examples are 624-92-7555 or 624927555 No other data required if this field is entered.

Patient Identification within CMS Net, Continued

Field	Description and Requirements
Current Legal County	<p>This field displays only on the Registration Display Patient Identification screen</p> <ul style="list-style-type: none"> • Patient Name and/or Date of Birth fields must be populated in combination with the Currently Legal County. If the Patient Name or Date of Birth is not populated the field will be bypassed. • Partial county name can be entered.

Data Entry Steps

The following steps begin the search for a patient on CMS Net:

Step	Action
1	<p>Enter any one of the following sets of information into the Patient Identification Screen:</p> <ul style="list-style-type: none"> • Patient Name (in upper case letters with no spaces between characters), AND/OR • Birthdate AND/OR Gender, AND/OR • Current Legal County (Registration Display only) • CCS Number, OR • Client Index Number OR • Social Security Number
2	Press < Enter>.

- ➡ To move from one field to the next, press the **<down arrow>** key. To go back to a previous field, press the **<up arrow>** key.

Search by one or more the following: Patient Name, Date of Birth, Gender or Current Legal County

Entering Patient Name and/or Date of Birth and/or Gender and/or Current Legal County as additional search criteria provides a more refined patient record search. If you choose to enter a name or partial name, the search will not begin until data is entered in the Date of Birth and/or Gender and/or Current Legal County fields or cursor through them.

Step	Action
1	Type Pt. Name (LASTNAME APPELLATION,FIRSTNAME) OR Type the first few letters of the LASTNAME, comma, and first few letters of the FIRSTNAME and/or Type the Date of Birth MM/DD/YYYY or MM-DD-YYYY and/or Type the Gender (M) Male or (F) Female
2	Press < Enter>

CMSNET	PATIENT IDENTIFICATION	CMSPI-10
<hr/> <p>Enter one of the following identifiers:</p> <p>CCS Number:</p> <p>Pt Name: SMITH,AARON CASEY Birthdate:</p> <p>Current Legal County Gender:</p> <p>Client Index Number:</p> <p>Social Security Number:</p>

**Standard
Patient
Identification
Pick List**

The data is from the most recent program eligibility period, regardless of the Patient Registration case status. It will be used on all patient identification screens *except* Edit/Duplicate Bad Record.

A patient may have one or more alias names The system will indicate if the name searched is [A] Alias or [B] Birth Name.

The example below displays with an Alias identifier [A].

Alias

Select Patient:	
() WRONG,KID	Gender: M DOB: 08/06/1999 [A]
CCS#: 3266639 CIN: 90003945D 2 Legal County: SAN LUIS OBISPO	
Reg=ACT Med=E F/R=E Pgrm End Dt: 12/31/1999 CCS Elig Stat:9R-HF;Over CCS	
[More] [Previous] [Quit]	

Below is an example of the Edit/Duplicate Bad Record pick list. It displays with a Birth Name identifier [B].

Birthname

Select Patient:	
() WRONG,KID	Gender: M DOB: 08/06/1999 [B]
CCS#: 3266639 CIN: 90003945D 2 Legal County: SAN LUIS OBISPO	
Reg=ACT Med=E F/R=E Pgrm End Dt: 12/31/1999 CCS Elig Stat: 9R- HF;Over CCS	
Record Status= Dup of 3298654	
[More] [Previous] [Quit]
